About me

I am on my journey towards becoming a self-taught developer. I've been practicing code for over a year now. Looking to explore and grow in the IT field for the upcoming future. Coding for me is like a relationship. The littlest things can cause issues but with the right amount of attention to detail and love. Code can be a beautiful thing. While seeing such growth throughout the adventure.

Skills

HTML5
Bootstrap5
git/github

CSS3
SASS
Visual Studio Code

Javascript
React

Projects

[To Do List](#)

Another Javascript To do list
-- *Html & Css* --
